MAY 2025

Prayer is intimate communication with God. One of the keys to having the closest possible fellowship and intimacy with God is good honest two-way communication. You cannot have intimate, open, honest, transparent, two-way communication with God until you are able to block out all distractions and be fully and totally focused on God.

By starting your prayer & fellowship time with Praise & Worship God helps you become focused on Him. It also helps to prepare your heart to hear God's voice. Praise & worship at the beginning of your prayer time helps you to realize Who you are with, and it helps you to have a humble heart towards God.

You need to be hungry and ready to hear God's voice. Your heart needs to be ready and prepared to hear Him and then respond to whatever He tells you. You need to have a worshipful, soft, willing, humble and obedient heart. A heart that loves God fully.
That is what a true worshipper of God is.
